## PROFILE

Analytical and versatile consultant, adept at managing concurrent objectives to efficiently meet deadlines with high quality work, and an attention to detail.

A keen planner with demonstrated abilities in IT operations, excellent communication and collaboration skills, and a multilingual, multicultural background.

## HISTORY

<b>Senior Analyst</b> mycondoplane • Vancouver	Mar 2014 • Dec 2021
Analyst and designer for a real estate SaaS firm. Automated and optimized processes using python and unix shell scripts to extract, transform and load data, and generate floor plan images for condos.	
<b>Logistics Lead</b> Khouri Design • Vancouver	Aug 2011 • Feb 2014
Initially contracted to design and build a company web site for a startup producing sculptural planters, I eventually stayed on to administer sales and logistics, while helping to develop the business.	
<b>Partner</b> Renaissance • Vancouver	Jul 2006 • Feb 2011
Partner in investment firm specializing in rental properties and equities. Developed and managed independent portfolios while overseeing the administration and maintenance of rentals condos.	
<b>Exchange Manager</b> Deutsche Bank • London, England	Jul 2000 • May 2005
Technical lead responsible for the GL Trade software systems at the bank. Promoted to Exchange Connectivity Manager in 03 to lead a consolidated technical team and manage a complex integration and phase out project.	
<b>Ops Manager</b> GL Trade • London, England	Sep 1996 • Jul 2000
Technical lead and eventually Ops Manager for the GL Trade London office, managing the team responsible for all proprietary software installations, configurations and support for investment bank clients in London.	
<b>Support Engineer</b> Servisen • Paris, France	Aug 1995 • Sep 1996
Software support engineer for a boutique financial services firm developing stock exchange trading systems for European investment banks. Responsibilities included specialized software installations and support.
